

Workshop

Digital Investigations

In the world of today, the careful and professional examination of IT devices like computers, telephones and PDAs become more and more important. The distribution of child pornography is only one of the topics where IT forensics can help to find substancial evidence to build a case. Harassment at work, money related crimes or the analysis after a successfull hacking attack on a server also require a forensic expert to find out what happened.

Synerity Systems offers you a unique workshop with two experienced detectives of the Cyber Crimes Task Force of the Las Vegas Metro Police deliver insights on their daily work.

The instructors:

Larry Smith

Larry Smith is a life time resident of Las Vegas, Nevada, USA and joined the Las Vegas Police Dept in 1988. Larry served in patrol then transferred to the gang unit where he specialized in Asian and Mexican gangs. He transferred to the Sexual Abuse Detail as a Detective in 1996. From there he organized and created the Internet Crimes Against Children Detail and the FBI Innocent Images joint Task Force. Detective Smith investigated hundreds of crimes against children including sexual abuse, physical abuse, Internet Travelers and child pornography. In 2001 Larry transfered to the United States Secret Service Electronic Crimes Task Force and started the Las Vegas Metropolitan Police Departments Cyber Crimes Detail. Larry is an adjunct professor at a local Community College teaching Computer Forensics and Advanced Computer Forensics.

William Oettinger

After serving in the Gulf War, William Oettinger left active duty in 1993 and joined the Las Vegas Metropolitan Police Department. In 2000, he was transferred to the Child Sexual Abuse Detail where he investigated hundreds of cases of sexual abuse of children. At this time Detective Oettinger started to work with the FBI Internet Crimes against Children Task Force. In 2003 Detective Oettinger was asked to start the Cyber Crimes Detail of the LVMPD, which then joined the Las Vegas Electronic Crimes Task Force with the United States Secret Service. Detective Oettinger is a adjunct professor at the Community College of Southern Nevada, teaching Digital Crimes Scene Investigation and Internet Forensics.
